

EXPERIENCE

Designer/Developer @ Little Springs Design

I contributed both graphic design and interaction design to variety of client projects. In addition to design, I helped move the company website onto a custom CMS and built mobile and desktop versions for the site. I also designed and built the site for the conference we put on, Design for Mobile.

Feb. 2010–Present
Lawrence, KS

Co-Founder & Designer/Developer @ Design Is Easy

I founded this group with a few friends to offer design and development services to non-profits and small businesses.

Oct. 2009–Present
Kansas City, MO

Designer/Developer @ Salva O'Renick

I had many roles on the small digital team at this marketing agency. Among these were: wireframing/interaction design, visual design, front-end development in HTML, CSS, and Javascript, as well as network & server administration and a small amount of back-end development.

Oct. 2006–Feb. 2010
Kansas City, MO

Network Technician @ Nednet

I worked for a small internet service provider in the mountain area outside of Boulder, CO. My duties included: conducting site surveys, troubleshooting connectivity issues, installing equipment for new customers, dealing with accounts and routine server maintenance.

April 2006–Oct. 2006
Nederland, CO

Assistant Conservator @ International Conservation Services

I assisted with a variety of tasks at this art conservation company. These included: collections management tasks, conserved paper and painted objects, troubleshoot IT issues, and assisted restoring furniture.

Sept. 2004–March 2006
Chatswood, NSW, Australia

SKILLS

Design

I sketch, paper prototype, draw wireframes, and do full-fidelity mockups. For mockups, I work mostly in Photoshop, but I'm also comfortable and capable in Illustrator and InDesign. For wireframing, I've used OmniGraffle, InDesign and Illustrator.

Development

I hand code (X)HTML, HTML5, CSS, and Javascript (mostly jQuery) for desktop and mobile sites. I have developed templates for Django, Wordpress, and .NET as well as doing a limited amount of back-end coding for each platform. I've also done some Ubuntu server administration.

EDUCATION

Bachelor of Arts in **Art History**, minor in Biology
Truman State University

May 2004
Kirksville, MO
